

Dalet 5.1 採用開放式的架構，能夠輕易地與電台網站結合，創造電台收益

The image displays the Dalet 5.1 software interface, which is designed for radio station management and integration with websites. The interface is split into several sections:

- Top Section:** Features a navigation bar with various icons (clock, volume, play, stop, etc.) and a digital display showing the current time as 00:02:38 and the track name "百分百".
- Second Section:** A list of songs being played, including "百分百 - 郭靜" and "再見小時候 - 南拳媽媽".
- Third Section:** A web browser window showing the website "http://foca2008/index.htm". The page title is "我們最近播出的音樂" (Music We Recently Broadcast). It contains a table of songs with columns for "項次" (Order), "歌曲名稱" (Song Name), "歌手" (Artist), "專輯名稱" (Album Name), and "播出時間" (Broadcast Time).
- Bottom Section:** A music player window showing the current track "百分百" by 郭靜 (Guo Jing) from the album "下一個天亮" (The Next Day). The player includes a video thumbnail and standard playback controls.

A large yellow arrow points from the text "開放式架構，網站結合，倉" (Open architecture, website integration, warehouse) towards the software interface, highlighting its flexibility and integration capabilities.
